One-Page Website Plan: Phnom Penh Student Study Spots

1. The Idea

- **Format Statement:** "A website that helps university students in Phnom Penh to find comfortable and affordable study spots."
- **Target Users:** Cambodian university students in Phnom Penh (e.g., RUPP, ITC, NUM...) looking for budget-friendly cafes, co-working spaces, and quiet libraries.
- **Primary Device:** Smartphones (Mobile-first responsive web view) and Laptops.

2. 3–5 Functions

- **Search & Filter Study Spots:** Search by neighborhood/district (e.g., Toul Kork, BKK, Sen Sok), price range for drinks/entry, Wi-Fi speed rating, and noise level.
- **Interactive Map View:** Browse comfortable cafes, public libraries, and campus study spaces near university campuses on an embedded map.
- **Filter by Amenities:** Filter spots specifically by availability of power outlets/plugs, air conditioning, seating style (sofas/ergonomic chairs), and late-night/24-7 opening hours.
- **Quick Directions & Share:** Open location in Google Maps or share spot details via a direct Telegram link.

3. Pages / Screens

Home Page

- Hero section with search bar ("Find comfortable & budget-friendly study spots in Phnom Penh").
- Quick category buttons (Plenty of Plugs, Quiet & AC, Under $2 Coffee, Late Night Open).
- Interactive map showing nearby study spots.

Spot Directory / Search Results Screen

- Grid or list view with cards displaying cafe photo, price level ($), Wi-Fi rating, and distance from major universities.

Spot Detail Page

- Detailed info: photo gallery of seating and plug locations, average drink prices, Wi-Fi speed test results, opening hours, parking availability, and student ratings/comments.

4. Content and Data

- **Text Content:** Cafe descriptions, opening hours, Wi-Fi speed notes, seating capacity, price range, and student reviews.
- **Visual Assets:** Photos showing seating comfort, plug availability, ambient lighting, and drink menus.
- **Data Sources:** Google Maps API / OpenStreetMap for exact locations and navigation; On-the-ground field data collected from popular study cafes near Phnom Penh university campuses; User-submitted recommendations via a Google Form / community submission feature.

5. Look and Language

- **Language:** Dual-language toggle (Khmer & English) for local and international exchange students.
- **Color Palette:** Warm Coffee & Soft Earth Tones (`#2B2D42`, `#8D99AE`, `#EDF2F4`, `#D4A373`) — modern, calm, and easy on the eyes for late-night studying.
- **Inspiration / Aesthetic:** Clean directory interface like Airbnb or Google Maps saved list (minimalist cards, clear filter icons, easy map navigation).

6. Not in Version 1

- **Seat / Table Reservation System:** Students check live space status in person; V1 does not offer online table bookings.
- **User Accounts / Profiles:** No login required; all study spot directories and reviews are publicly accessible in V1.
- **In-App Menu Ordering or Payments:** Menu prices are listed for information only; no direct ordering or digital payments integrated.
